

**Audience – Adept Response aR12-TSSOX Passive Master Power Conditioner** (\$11,195.00 includes 6 ft. Au SE-I powerChord), **AU24 SX Power Chords** (MP/HP, \$4,200.00/\$4,600.00 respectively), **Au24 SX Speaker Cables** (\$3,000.00 for a 2 meter pair): While each of these different outstanding products can provide high levels of performance individually, their true sonic magic comes from their synergy when used as a total system. The result is a highly refined with a liquid smooth, organic and superbly textured quality. This is coupled with a noticeably neutral tonal balance yet with outstanding resolution and inner detail. The overall sonic presentation delivers music flowing with naturally powerful dynamics that can literally be arresting, and in a very positive way. In fact, through these products, music isn't forward or laid back; soft or bright. It simply sounds like real music with no hi-fi type gimmicks or sonic artifacts. "Sonic beauty," are words that quickly come to mind when trying to describe the sound of music with these products in place. *(Bill Wells)*
