**AUDIENCE A3 FULL RANGE DRIVER  
A BREAKTHROUGH IN LOUDSPEAKER DRIVER DESIGN**

*-- State of the art engineering  
results in performance breakthrough --*

San Marcos, CA, January 19, 2009 – Audience, LLC, an award-winning designer and manufacturer of high and ultra high resolution audio system products, today announced the release of a 3” full range loudspeaker driver. The Audience A3 is a breakthrough full range loudspeaker driver design comprised of a patented motor structure, patent-pending suspension and patent pending basket. The A3 has an exceptionally flat response from 40Hz to 22Khz, and -20 at 20Hz with very high power handling and dynamic range. The A3 is built like a high power sub woofer driver using a large neodymium motor structure, big voice coil and suspension venting. The A3 is ultra responsive at 2.5 grams total moving mass providing state of the art resolution and dynamic range. The A3 sports 12mm of usable excursion with less than 1 dB compression at levels up to 95 dB SPL.

The A3 is currently available in 16ohm and soon to be available in 4ohm and 8ohms and is being offered to dealers, OEM users and DIY enthusiasts. \$170 MSRP
